6. BRIEF FACTS OF THE CASE

The complainant states that on 12/08/2026 he was added to a WhatsApp group titled "AlphaQuant VIP Signals" by an unknown person who introduced himself as a portfolio advisor. He was persuaded to register on the website www.alphaquant-invest[.]com, which displayed a professional trading dashboard showing daily returns of 3 to 5 percent.

Between 12/08/2026 and 29/08/2026 the complainant transferred a total of Rs. 47,50,000/- in eleven instalments. He was directed to purchase Bitcoin through a peer-to-peer platform and remit it to the wallet address 1CRLGcaXajtWVF5EopZgQUqE12dKn8Rtuh. The dashboard reflected a balance of Rs. 71,20,000/- against these deposits.

When the complainant attempted to withdraw on 30/08/2026 he was informed that a "regulatory clearance fee" of Rs. 8,00,000/- was payable in advance. On refusing, he was removed from the group, the advisor's numbers became unreachable and the website ceased to resolve. The complainant thereafter registered complaint NCRP/2026/KA/0004471 on the National Cyber Crime Reporting Portal.

It is prayed that the said wallet address be traced through blockchain analysis, the recipient virtual asset service provider be identified, and appropriate preservation and disclosure directions be issued under Section 94 of the Bharatiya Nagarik Suraksha Sanhita, 2023 for recovery of the defrauded amount.

7. ACTION TAKEN

The above information having disclosed the commission of a cognizable offence, the case was registered and investigation was taken up. The digital asset particulars at Item 5 have been forwarded to the Cyber Forensic Analysis Unit for on-chain tracing.
