Total: Rs. 6,40,000/- (Rupees Six Lakh Forty Thousand only). All amounts were converted to Bitcoin and remitted directly to wallet 1BUwWuFzb23JzvCvEtcYbvufscfWWEQRkM.

7. BRIEF FACTS OF THE CASE

The complainant states that on 20/09/2026 she received a WhatsApp broadcast message offering a part time task based job: like, follow and review listings on an app for a daily task payment, with a larger referral bonus for recruiting others. She was added to a Telegram channel called "QuickTask Rewards" and completed an initial set of tasks without issue.

Between 20/09/2026 and 22/09/2026 she was told that higher-value task tiers required an upfront refundable deposit, paid by first purchasing Bitcoin through a peer-to-peer vendor and remitting it directly to the wallet address 1BUwWuFzb23JzvCvEtcYbvufscfWWEQRkM. She transferred a total of Rs. 6,40,000/- in four instalments, each time being shown a rising task-earnings balance in the app.

When the complainant attempted to withdraw her task earnings on 23/09/2026, she was told a "tax clearance deposit" was required in advance. On refusing, she was removed from the Telegram channel and the admin's account became unreachable. The complainant thereafter registered complaint NCRP/2026/GJ/0011623 on the National Cyber Crime Reporting Portal.

It is prayed that the said wallet address be traced through blockchain analysis, any connection to other reported complaints be established, the recipient virtual asset service provider be identified, and appropriate preservation and disclosure directions be issued under Section 94 of the Bharatiya Nagarik Suraksha Sanhita, 2023 for recovery of the defrauded amount.

8. ACTION TAKEN

The above information having disclosed the commission of a cognizable offence, the case was registered and investigation was taken up. The digital asset particulars at Item 5 have been forwarded to the Cyber Forensic Analysis Unit for on-chain tracing.
